## Preface

For an author nothing can be sweeter than the appreciation of his work. Encouraged and inspired by the tremendous success of my previous publications, I am delighted to present this my –the 4th book with great hope that it will serve its objectives like all the other books of mine.

The ever-growing importance of English claims a thorough and sound study of the richest language of the world. English is the real window to the world and has a vast employment prospect in almost all the spheres of life across the world including science and technology, print media, electronic media, multinational companies, government and private institutes and so on.

Though *Advanced Grammar and Applied Language Skills* is intended to cater the needs of the college students, it is equally useful for all the advanced learners who aspire to acquire deep knowledge and eloquent communication skills in English. The book is written in a simple language and contains Analysis, Examples, Exercises with Answers besides eleven Practice Model Tests keeping in account the pattern of college and competitive examinations across the country.

Sincere acknowledgement is submitted to all those, whose works have been consulted in the process of preparation of this work.

Hope this book will serve its purpose and dear students will benefit considerably by reading this book minutely and intensively.

July, 2023- Itanagar
